Why is this E-Course so special?

- Rich graphic content and texts
- Videos and quizzes
- Forums
- Independent learning adapted to one's own needs

Partners

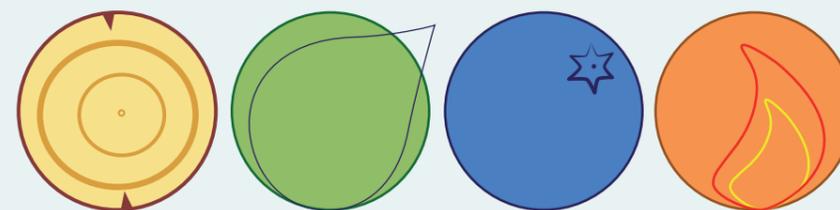

Co-funded by the Erasmus Programme of the European Union. Responsibility for the information and views set out in this brochure lies entirely with the authors, and not with the Agency for Mobility and EU Programmes or European Commission

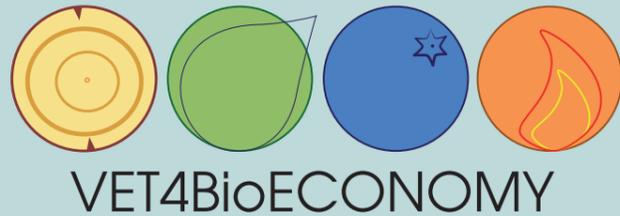

E-Course

E-course for key competences in the emerging field of forest-based bioeconomy

VET4BioECONOMY

Why is an E-Course about forest-based bioeconomy necessary?

Forest bioeconomy becomes one of the guiding paradigms for the forest-based sector, nevertheless there is a lack of educational opportunities in vocational education and training (VET) for this topic.

What is the E-Course about and who is the target group?

This e-course is designed to provide knowledge on forest-based bioeconomy. Because of rich graphic content and texts, the content is adapted for all levels, from beginners to experts. In general, the main target group are forest owners, forest high school students and forest engineers. The whole e-learning content is translated into English, Croatian, Slovenian and German.

What are the main sections of the course?

1. Introduction to forest-based bioeconomy
2. Forest-based value-chain
3. Cross-sectoral aspects
4. Political framework
5. Boosting entrepreneurship and innovation
6. Best practice examples

What is the learning outcome?

Participants learn about the key features, areas of activity and challenges of the forest-based bioeconomy in the current policy framework. Moreover, participants will get information about business opportunities and business plans in the forest-based bioeconomy, which will be supported by best-practice examples from Croatia, Slovenia and Austria. Upon successful completion, participants will receive a certificate.
